Erasmus Plan

Objectives

The following is the list of your Erasmus Plan objectives and your estimated yearly activity targets. Please consider these objectives carefully when requesting your activities in the next section. Above all, you should make sure that the activities you request can contribute to achieving your Erasmus Plan objectives - this will be one of the key measures for evaluating your activities once they are finished.

Objectives

Planned activities

The following table shows your estimated yearly targets for number of participants.

These yearly activity targets are not obligatory. You will not be penalised if you request fewer activities than originally planned according to the table below. Working on your Erasmus Plan objectives is more important than reaching a specific number of participants. You are also allowed to request staff or learner activities even if they were not included in your accreditation application, as long as they contribute to your Erasmus Plan objectives.

Activities

How does the budget request work?: The figures that you provide here will be used in the scoring of your budget request and will serve as your targets for implementation. If the National Agency is not able to provide budget for all of the requested activities, the targets included in your grant agreement will be adjusted accordingly. At the end of the grant agreement, your results will be evaluated based on the agreed target figures. For this reason, it is very important to make the most realistic request possible, rather than the most ambitious one. You do not need to provide a list of hosting organisations as part of your budget request. During project implementation you can freely decide which hosting partners you want to work with. To find hosting partners, we recommend that you use the [Partner search tool](#) available online at the Electronic Platform for Adult Learning in Europe (EPALE).

At the same time, flexibility is an important feature of the accreditation system. During implementation, the actual number of participants and duration of activities may vary. The key principle to keep in mind is that you should always be able to explain your choices in relation to your Erasmus Plan objectives

Please choose the types of activities you would like to implement in your project and complete the following table with the number of participants and duration for each type of activities you have chosen. In addition, you can request accompanying persons and preparatory visits where needed.

Before completing this table, make absolutely sure that you are familiar with descriptions and rules of each activity type as presented in the Erasmus+ Programme Guide. It is best to complete the table with the Programme Guide open.

Pay particular attention to types of activities reserved for staff and for learners. Staff are teachers, trainers and other persons working in adult education. Adult learners are persons that are being taught.

Secondly, please note important differences between group and individual activities for learners. Individual mobility format requires an individual learning programme, evaluation and recognition of learning outcomes for each participant. In group activities, a single joint learning programme is defined for the whole group and individual evaluation is not required. Accordingly, different amounts of organisational support will be provided depending on the activity type. Travelling and accommodation arrangements (whether learners stay together or separately) are not relevant for the definition of the activity type.

For a complete description of the activity formats and comparison of funding rules, please refer to the Programme Guide.

Activity type	Number of participants	Total duration (in days)	Average duration (in days)	Number of accompanying persons	Total duration (in days) for accompanying persons	Average duration (in days) for accompanying persons	Total number of persons taking part in preparatory visits

Total	0	0	0	0	0	0	0

Activity details

Please define your targets for the following categories of participants. These targets will become a part of your grant agreement and some of them may be taken into account at budget allocation stage. For more information about the budget allocation criteria, please consult the Programme Guide and visit the website of your National Agency.

Activity type	Number of participants	Number of participants with fewer opportunities	Number of participants in blended mobility activities	Number of persons using sustainable means of transport (green travel)
Total	0	0	0	0

Exceptional costs and inclusion support for participants

In this section you may request Exceptional costs and Inclusion support for participants. As opposed to standardised unit costs applicable for other types of costs, these budget categories are funded based on actual expenses. These non-standard costs require specific description and justification in order to be approved. Before making a request, please read the funding rules in the Programme Guide to make sure the type of expense you are requesting is eligible.

Cost type	Activity type	Estimated number of participants requiring support	Description and justification	Estimated cost (EUR)	Support rate (%)	Eligible amount (EUR)
Total		0		0,00		0,00
